**Assessing in English**

In this workshop, we give you some of the background you require to prepare exams in English – both oral or written. Based on your specific questions, you will receive peer-to-peer advice. These consultation sequences are interspersed with concise input from the two instructors. We therefore ask you to consider precise questions relating to your specific examination practice before the workshop.

**Contents:**

- Challenges of conducting examinations in English
- Peer-to-peer consultation regarding examinations and assessment
- Characteristics of written and oral examinations conducted in English
